

Lorenzo Serafino

CIRCUS ARTIST

PERSONAL BACKGROUND

Lorenzo is born in Tuscany, Italy before immigrating to Montreal at the age of 2. He starts expressing his artistic side at a young age, through drawing, sculpture and music. He begins his artistic career as a high-end jeweler for his family's jewelry business, SERAFINO.

In 2019, he discovers a new passion for circus arts. This led him to enroll in the Verdun Circus School Preparatory Program and Stéphanie Decourteille's contemporary dance program, Big Bang. He often attends workshops and intensive courses with renowned artists to broaden his experience on technical and artistic aspects.

Specializing in contortion, hair suspension and hand balancing, Lorenzo trains his artistic corporeality, mainly through creative projects, in groups or solo and by working in private sessions with coaches.

He currently performs with different companies and collectives, notably Cirque Hors Piste, Collectif 4237 & Carmagnole.

"I seek to continue the precision work of a jeweler in my new practice of physical movement. To develop timeless jewelry that can be worn in the minds of all to create an unconscious collective imagination."
